# POCKETEER PROGRAM

What if you could end homelessness —BY BUILDING A HOUSE!

## VOLUNTEER SHELTER BUILDERS

- *DO YOU BUILD?*
- *DO YOU KNOW ELECTRICAL*
- *DO YOU KNOW PLUMBING?*
  - *CAN YOU PAINT?*
- *DO YOU WANT TO HELP?*

### THE OPPORTUNITY:

- Volunteer to build units in a Fresno factory
- Units are delivered to the Homeless Mission
- Insurance and Tools provided
- Work Packages are led by a foreman
- Pocket Homes = immediate emergency shelters

### WEEKEND WORKDAYS:

- Work in the Fresno PreFab Innovations Factory
- Fellowship and Music
- BBQ and Picnic
- Meaningful Work
- Free Gear (T-Shirts, Bumper Stickers)

**COMMUNITY IMPACT CORPS**  
PROFESSIONAL LOCAL IMPACT

**THE PROBLEM:**

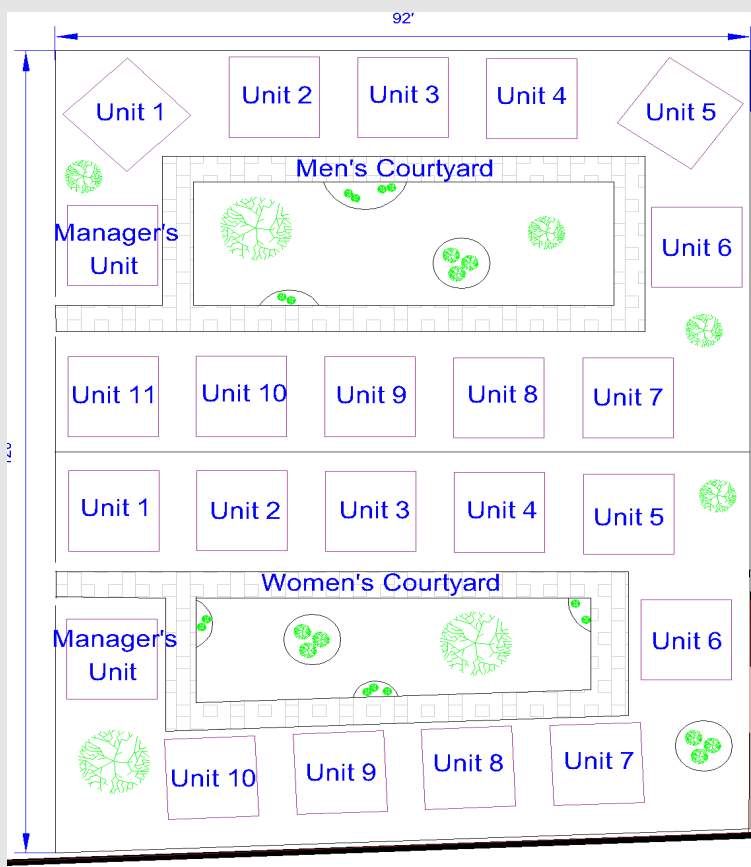

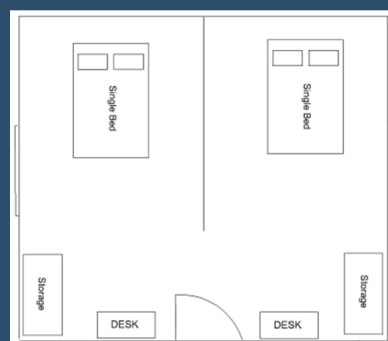

- A lack of affordable housing is the major cause of homelessness
- Shelter Developments are slow and vastly expensive
- Community members want to help but don't have many ways to do so
- Cities and homeless shelters are overwhelmed

**OUR SOLUTION:**

- Factory-built housing is faster and significantly less expensive
- Sites can be developed at the same time as units
- Volunteers build the house and site

**ABOUT THE UNIT**

- 12x12 dimension—144 Sq ft 2 person unit
- 4 Windows & Celestary vault adds light
- HVAC Included
- 30 Amp 120 volt, RV electric service (50 foot cord incl or Solar)
- Locking—Residents leave belongings safe & secure
- Interior walls are 1/2 plywood covered with engineered wood—impossible to dent
- Suitable for pets to stay with clients

**HOW DOES IT WORK?**

- ⇒ You build the units
- ⇒ We place them on a site in your city
- ⇒ Operated by a local Rescue Mission
- ⇒ Funded by your Sponsorship?
- ⇒ Contracted site development and administration
